

1. Go to [www.indwes.edu](http://www.indwes.edu)
2. Click on “undergraduate” in the lower left edge of the picture
3. Choose “academics” which will take you to the academic divisions
4. Go down to Division of nursing and click on nursing
5. This opens the nursing division web page and there is a link “innovations conference” and you can find the abstract guidelines there.

I apologize for the difficulty navigating this site. We are trying to get this issue solved!

Let me know if you have any other problems finding the guidelines and I do hope you will submit an abstract!

Blessings,  
pam
